

JOSHUA RALPH ADRIAN SOLOMON

CRM & Automation Specialist | Marketing Systems Builder

Olongapo City, Philippines · +63 961 556 2117 · solomonjoshua101602@gmail.com

Open to Freelance Retainers & Full-Time Remote Roles

SUMMARY

Marketing systems and automation specialist who builds the technical backbone agencies and service businesses actually run on. Custom-coded websites on Cloudflare, GoHighLevel CRM builds, A2P-compliant SMS, Zapier, n8n, Make, ClickUp — turning sales pipelines, lead-routing logic, and email workflows into automations that survive a busy week. Building AI-augmented pipelines with Claude + OpenAI APIs for outreach personalization and lead-scoring. Currently embedded with a US marketing agency; open to senior freelance retainers and remote employment.

CORE EXPERTISE

CRM, SMS & Automation: GoHighLevel (GHL) full builds, CRM pipelines, lead routing, booking automations, GHL A2P 10DLC SMS compliance, Zapier, n8n, Make, ClickUp

Email, Billing & Lifecycle: Mailchimp, HubSpot, GHL Email, dedicated sending domains with SPF/DKIM/DMARC, newsletter systems, multi-step nurture sequences, automated invoicing & billing-reminder workflows

Websites, Hosting & SEO: Custom-coded sites (HTML / CSS / JS) deployed on Cloudflare Pages; Wix Classic / Studio / Velo, WordPress, Squarespace as platform alternatives. Ongoing on-page and technical SEO + Google Search Console.

Technical & Integrations: Cloudflare DNS & Pages, domain management, GHL domain connect, Square + Stripe + GHL invoicing flows, Google Apps Script back-office logic, Gmail-to-task pipelines, DistroKid distribution

AI & LLM Integration: Building AI-augmented automation workflows — Claude + OpenAI API integration in n8n & Make for outreach personalization, content drafting, and lead-scoring. LLM-augmented marketing automation as a core differentiator vs no-AI agency builds.

EXPERIENCE

Technical VA & Web Developer

Feb 2026 – Present

Arrow Group Consulting — Michigan, USA · *Part-time ongoing contract*

- Embedded technical implementer for the founder — owning the systems side of new client onboardings end to end.
- Built and shipped custom-coded HTML/CSS/JS websites deployed on Cloudflare Pages, plus Wix Velo extensions where platforms were the better fit.
- Managed Cloudflare DNS, domain go-lives, and GoHighLevel domain connections across multiple client accounts.
- Achieved A2P 10DLC brand approval for client SMS campaigns on GoHighLevel — the hardest GHL setup, often a blocker for agencies.
- Built dedicated email-sending infrastructure (separate subdomain, SPF/DKIM/DMARC aligned, SSL issued, warmup completed to 6,500 emails/day capacity) for radio-station client.
- Designed and shipped monthly newsletter campaigns; set up automated invoicing and back-office workflows.

Virtual Marketing Assistant

Sep 2025 – Apr 2026

Doneverse — Philippines · *Marketing VA agency*

- Primary technical implementer across the agency — Wix, WordPress, Squarespace, HubSpot, and Mailchimp client accounts.
- Built advanced GoHighLevel automations: CRM pipelines, lead-routing rules, booking funnels, and sales sequences.
- Designed and rolled out the agency's full ClickUp project management system from scratch — including Gmail-to-task automations that eliminated manual triage.
- Delivered Wix Studio builds and integrated Square payment processing into client checkout and intake flows.
- Built custom Google Apps Script back-office database for a consignment startup (multi-platform listing flow across Poshmark / eBay / Depop, live notifications to client).

Also open to freelance retainers — full pricing and service tiers available on request.
